

BENEFITS

World Oil Tools Thru Tubing Packer is designed to provide optimum performance with maximum running ease.

- » Run on coil tubing - ideal when avoiding or unable to pull production tubing.
- » No rotation required to set or deflate packer.
- » For use in cased or open holes - element can inflate up to 3 times original size.

SAVE RIG TIME - SAVE MONEY

APPLICATIONS

Putting our Thru Tubing Packer to work for you.

- » Water shut-off
- » Injection
- » Squeeze cementing
- » Production
- » Pressure testing casing patches
- » Testing and treating
- » Bridge plug

Thru Tubing Packers

FEATURES

- » Inflatable steel strip element
- » 1.67m element
- » Exposed strip element available for cased holes
- » Elastomer compound rated to 115°C (240°F)
- » Advanced elastomer rated to 180°C (350°F)
- » Open/Close shear valve
- » Shear/Pull release to disconnect
- » Designed to maintain high differential pressure across the element
